CONNECTED BUILDINGS

How Technology Drives Real Estate: What I learned
Connecting 1000s of Buildings

Today, digital disruption is all-pervasive, with technology integrated into our everyday lives. But the CRE sector has historically lagged behind in adopting the technology. This session will take a practical approach to embrace the importance of digital disruption and the astronomical returns on adopting advanced analytics tech.

Roger Woodward
Global Real Estate Strategist
Ex- Tridium Managing Director

11.30 am - 12.00 pm TEA BREAK

12.00 - 12.40 pm

PANEL DISCUSSION

Moving Beyond the Buzzword: Unpacking Value-led
Digitization into Actionable Ideas

Hear this panel (and the audience) speaking frankly and sharing honest insights on what's worked, what hasn't, the challenges they faced, and the measurable ROI in digitisation.

- Most common digitised processes in today's scenario
- Measurable value and ROI in the digital journey
- Popular initiatives by different orgs; the why and how behind it's strategy & execution
- Why CREs and Large Enterprises should be at the center of steering digitisation than relying on external vendors to make that decision.

PANELISTS

Srinivas Reddy
Head of RE, Workplace, Infrastructure
Curefit

Sandeep Sharma
GM - Property Management
Prestige Group

Thomas Preising
Senior Advisor
AMP Capital

Manu Nair
Executive Director
Brigade Enterprises

AUTOMATION PERSPECTIVE

Demystifying Digital Retrofitting: Building Smart and Connected Facilities Management

Sakhee Chandrayan
Industry Consultant

If a building is populated with equipment that uses multiple incompatible protocols, you'll have a building that can't communicate. This is critical for the CRE and FM's quest to digitisation. Understand:

- Why the next generation of automation will communicate via open protocols
- How traditional & siloed systems will transform as cloud-based software-driven products
- Importance of connecting building portfolios to achieve economies of scale

1- 1:40 PM

LUNCH BREAK

1.45 pm

ALL HANDS DISCUSSION

Practical technologies strategies for 2019

Open to all

FUTUREPROOF isn't the run-of-the-mill conference with lengthy powerpoints and disconnected panel discussion. This is a curated un-conference session creating the space for participants to better exchange innovative ideas and take advice.

2.05 pm

REAL-WORLD DEEP DIVE

Finding Efficiency: How Infosys Centralised Building Operations Across their Pan-India Facilities

Punit Desai
Regional Head of Infrastructure
Infosys

An insider account on India's most mega-efficient project of creating fully unified building operations. This session will be a practical guide on how Infosys saved around 60Crore INR by utilising technology to gain central control across their dispersed building portfolios.

2.30 pm - 3pm

PANEL DISCUSSION

Closing the Gap: Why Automation and Facilities Operation Need to Work Together

This is an enriched, critical learning session housing various stakeholders under one roof discussing the current status of automation in facilities, it's utilisation metrics, and strategic ways to amplify its value.

- Maximizing automation investment for operational efficiency
- Leveraging Automation to improve HVAC efficiency
- Leveraging Automation to improve Sustainability
- Importance of Considering an Enterprise-Wide Facilities Optimisation Platform
